

Photobooth

Basically a photo booth just like at the mall, but with a maker's charm.

Get Involved!

Everyone is welcome!

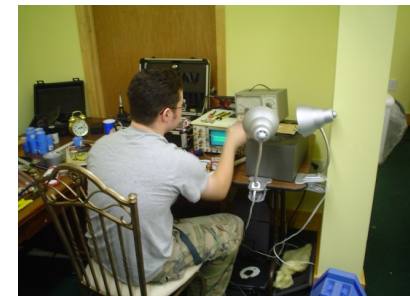

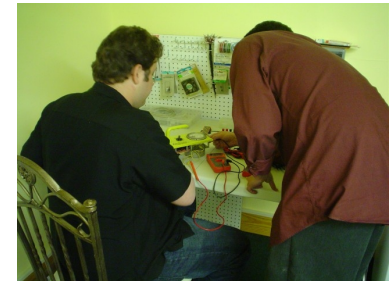

Makers
Local 256

invites anyone interested in tinkering, building, experimenting, and making to join us! See a current member on how to join.

Web: <http://256.makerslocal.org>
IRC: irc.freenode.net #makerslocal
Wiki: <https://256.makerslocal.org/wiki>

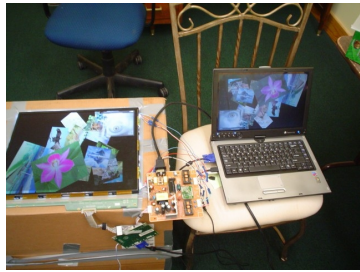

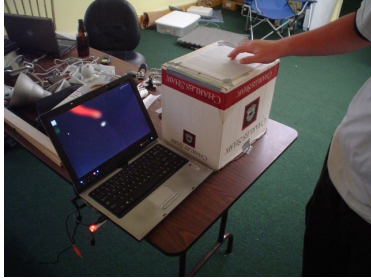

Makers Local 256 depends on the support of people just like you. Please consider a donation. THANK YOU!

Welcome to

Multitouch

Multitouch technology is a user-interface system designed to be operated not by a mouse and keyboard, but with the human hand!

Sensors detect not only one finger, but any

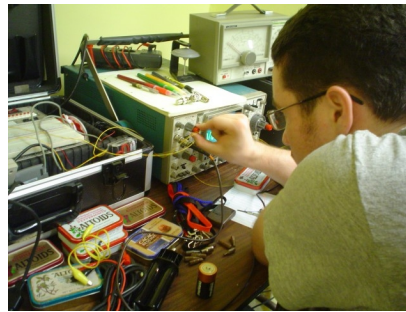

number of fingers, even allowing multiple users on a single machine.

“There is no reason in this day and age that we should be conforming to a physical device. These interfaces should start conforming to us.”

-Jeff Han

The Shop

Makers Local 256 is dedicated to providing a place where people can go and work on assorted projects in an environment that stimulates creativity and motivation.

Curious?
Creative?
Inventive?

**The Shop is the
place for you!**

The Future

Makers Local 256 is working on 501(c)(3) status (charity). With the help of the local community, we hope to expand operations and provide:

- Larger, better facility
- Advanced equipment/tools
- Maker's Convention
- ...more fun projects!
